## Ordering

**All orders must be submitted with a Kith Kitchens/Eudora Order Cover Sheet.**

During peak seasons production can fill up, therefore placing and approving your order prior to your cutoff day 12:00 p.m. CST will help ensure your lead-time. Delivery dates will only be established after you have signed off on the order. **Kith Kitchens reserves the right to adjust lead-times during peak seasons and other factors out of our control.**

**The Dealer and Kith Kitchens/Eudora responsibilities are as follows:**

- (1) The dealer's account must be in good credit standing.
- (2) The dealer will submit the order via email to: orders@kithkitchens.com, using only Kith Kitchens/Eudora Nomenclature.

Therefore, your original order must be submitted with sufficient time to complete the above listed procedures. Kith Kitchens will not start production of the order until there is firm approval (sign-off) of the Acknowledgment.

**Continued on next page**

**The Acknowledgment is our interpretation of your submitted order. Any discrepancy between your original submitted order and the Acknowledgment is the responsibility of the Dealer. Kith Kitchens will not produce an order until the signed Acknowledgment has been returned to customer service by way of fax or email. Orders will be produced from the signed Acknowledgment.**

## Proper Care and Cleaning Tips for Your Cabinetry

Kitchen Cabinets, just like fine furniture, should be dusted or vacuumed periodically depending on the amount of particulate matter that may have accumulated. Always dust with a polish-moistened or damp cloth, as dry dusting may scratch the surface. It is also a good practice to follow the grain of wood when dusting - wiping across the grain could cause scratches to appear if the dust contains grit. Residues such as smoke, cooking vapors or body oils can be cleaned with a damp cloth with a small amount of furniture cleaner. Remember to use a clean soft cloth such as an old t-shirt, cheesecloth, dishtowel, flannel or chamois with no snaps or buttons that may scratch the surface.

## Basic Care Tips

- Wipe up spills, splatters and water spots as they occur - keep the cabinets dry.
- Clean as needed with a soft, lint free cloth. Use a mild detergent or soap and warm water.
- Dry surfaces immediately with a soft cloth.
- Avoid using a dishcloth or sponge - it could contain remnants of grease or detergents.
- Do not use products with bleach, ammonia or abrasive additives.
- Never use scouring pads, steel wool or powdered cleaners.
- Do not allow oven cleaners to come in contact with wood finishes.
- Avoid placing small kitchen appliances where heat is directed onto cabinet surfaces.
- Avoid draping damp clothes or dishtowels over cabinet doors - excessive moisture can cause permanent damage.

With proper care and maintenance, your cabinets will be beautiful for years to come.

## LIFETIME LIMITED WARRANTY

Kith Kitchens provides the original homeowner purchaser a lifetime limited warranty against defects in workmanship and materials subject to the exclusions and limitations noted below. This warranty applies only to the original homeowner purchaser who resides in the residential structure where the cabinetry was originally installed. The Kith Kitchens warranty is non-transferable.

The Kith Kitchens lifetime limited warranty does not cover defects or damage that are not directly the result of Kith Kitchens design or construction. The warranty does not cover damage caused by others or damage beyond the control of Kith Kitchens including misuse, abuse, accident, neglect, alteration, mishandling, improper storage, fire, flood, tornado, earthquake or other acts of God. This warranty does not apply to any product used or installed in conjunction with Kith Kitchens cabinetry such as plumbing fixtures, counter-tops or appliances.

Accessories or components that are not manufactured by Kith Kitchens are not covered under this warranty; however, they are covered under their own manufacturer's warranty. This may include but is not limited to outsourced internal cabinet accessories.

**This warranty is limited to the repair or replacement of defective parts. In no event shall Kith Kitchens pay for or be held liable for the cost of labor, installation and touch-up of the replacement products or for any other cost related to the replacement of products, all of which is the responsibility of the person making the claim.**

In addition, the following are excluded or limited from the Kith Kitchens lifetime limited warranty:

- Any condition or appearance caused by improper care or cleaning. (Proper care and cleaning instructions are included in the price book.)
- Natural characteristics in the wood grain and color. (For more information refer to the price book.)
- Kith Kitchens cabinetry is not intended for external or commercial use; such applications are not covered under this warranty.
- The Kith Kitchens warranty does not cover expansion defects and/or joint separations that occur as a result of high humidity, high moisture content, and exposure to extreme heat or improper storage. In the case of joint separation, Kith Kitchens may, at its option and after inspection from a Kith Kitchens Representative, defer action for a period of 6 months to allow the doors to acclimate to the environment.
- The Kith Kitchens warranty is not valid unless the products have been paid for in full.
- Unfinished product is not covered under this warranty.

To obtain service under this warranty, please contact the business where you purchased this product. A copy of the original purchaser's dated receipt must be submitted. Kith Kitchens reserves the right to inspect the claimed defective product or request that the replacement be invoiced at the time of shipment with credit being issued upon the return and inspection of the defective product.

No dealer or agent of Kith Kitchens has the authority to change or extend the above warranty or responsibility.

**This warranty is in lieu of all other warranties expressed or implied. To the extent permitted by law, this warranty does not cover special, incidental or consequential damages (such as labor expenses in uninstalling or installing any material or parts) whether arising out of breach of warranty, breach of contract, tort or otherwise.** Some states do not allow the exclusion or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

## Grain and Color Variations of Wood

Nature signs every tree with its own fingerprint. It reflects the region and terrain where each tree grows and the weather each tree experiences during its many growth cycles. These influences are seen in the grain and pattern of each piece of wood. The beauty of natural wood is derived from the fact that no two trees are identical. Wood cut from one part of a tree will appear different from wood cut from other parts of a tree. Some of these differences are grain pattern, grain color, knots, pinholes, and sap runs. Each piece of wood reacts differently to all finish materials including white, all transparent stain colors and pigmented base coat finishes, due to the natural variations in the wood. All wood mellows and changes with the light that came in contact with the wood.

Doors and drawer fronts may not exactly match when first manufactured or as time goes on due to the different ways in which each piece of wood reacts to all of the above. In addition, environmental conditions such as smoke, cleaning agents, exposure to harsh sunlight and chemicals may cause the finish or wood color to change in appearance. For these reasons door samples and wood samples may not appear the same as a set of finished cabinetry. This is not a defect. It is a result of natural and environmental conditions that make each set of cabinets unique. As you look at wood cabinetry, remember that the beauty of a natural product is its one-of-a-kind character. So, enjoy it for its beauty.

## Enhanced Finishes

Creating an antiqued or weathered look by applying Glaze, Brushing, Rub-Through, Vintage or Heirloom Finish Enhancements is a process that is done by hand. Variation with these hand applied finish techniques is to be expected. It is not a defect. The variation should be judged for its overall effect to the entire finished product, not an individual door or drawer front.

## Pigmented Base Coat Finishes (Paint Finishes)

The nature of wood due to climate change and physical handling is to contract and expand. Painted finishes will magnify any expansion or contraction in the cabinets. Painted finishes, unlike stained finishes, will make the opening of joints and the center panel movement more obvious. Hairline openings at the joints can be expected and are not considered a defect.

The information in the previous awareness statement is not intended to discourage you from buying or selling any of the products. It is intended solely to inform you and your customer of the possible natural and man-made characteristics of cabinetry and the importance of your acceptance of these occurrences.

## Finish Agreement

I understand the variation in color pattern and the natural and man-made circumstances that occur when stain, paint or a finish enhancement has been applied to cabinetry. I understand that these are elements of nature, beauty and artistry and not a defect. There has been no attempt by the craftsman of Kith Kitchens to tone down or cover up any variation in wood.

I find these aspects of those variations to be desirable and agree not to hold Kith Kitchens nor my Kith Kitchens Dealer responsible in the event I find those variations to be any less desirable than I expected.

#### Removable Options

#### REMOVABLE TOP (RT)

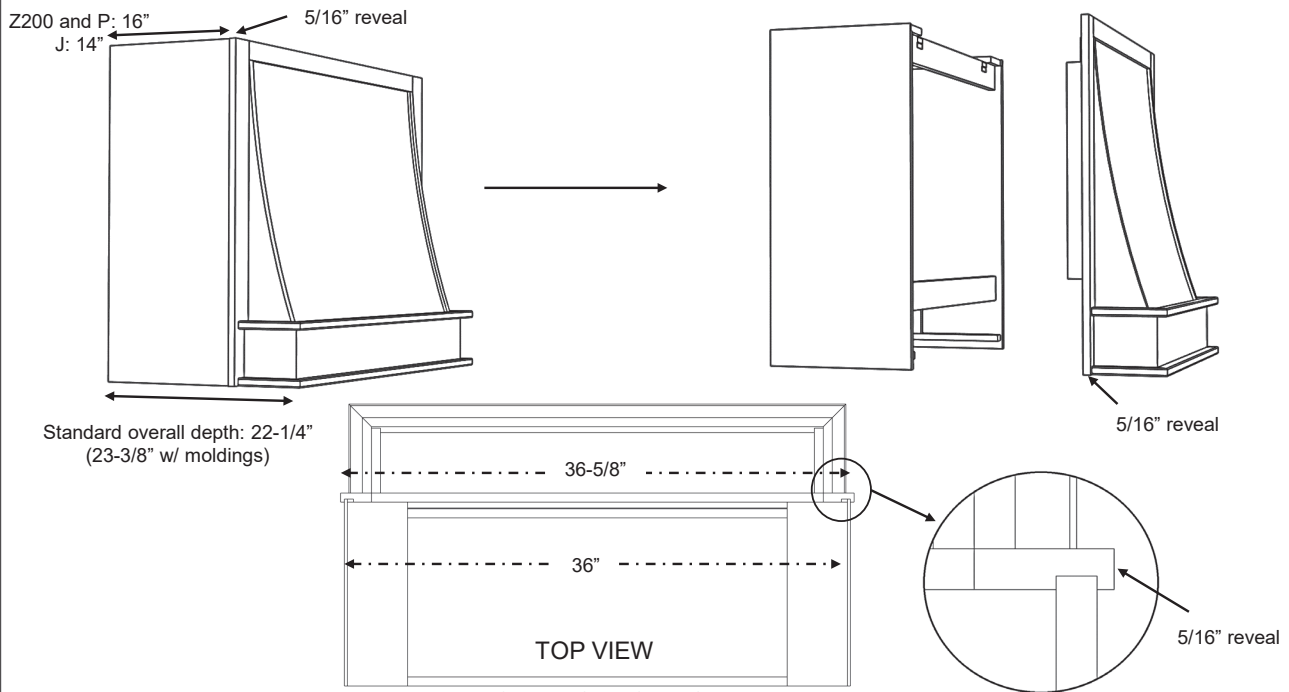

Base of the hood will be installed first with the ventilation. After all hook ups are complete – the chimney top will be attached. You will need a minimum of 3/4" clearance to lower chimney on guides. Cutting or trimming of parts in field will void warranty and compromise structural integrity.

AVAILABLE ON THESE MODELS: BXHW, BXVHW, C, CX, E, E200, FX200, G, GT

#### REMOVABLE FRONT (RF)

Entire front section lifts straight up 3/4" and removes. Vent is easily installed, then front section is reattached. The rear cabinet box will be 16" deep (14" for J- Series). There is a 5/16" reveal on the front frame to box (adds 5/8" to overall width of front section only). A minimum 3/4" vertical clearance is needed between hood top and ceiling so that you can slide onto guides. Cutting or trimming of parts in field will void warranty and compromise structural integrity.

AVAILABLE ON THESE MODELS: J, P, Z200
