## **Product Specifications Catalog**

June 2018 Edition

**This page intentionally left blank.**

# *Kahle's Kitchens, Inc.*

## **Limited Lifetime Warranty**

Effective January 1, 2010, Kahle's Kitchens, Inc. warrants to the original purchaser for as long as they own their home that the cabinets manufactured by Kahle's Kitchens, Inc. for residential use will be free from defects in materials and workmanship from the date of delivery to the original purchaser. During the warranty period, Kahle's Kitchens, Inc. will repair or replace, at its sole option, and after inspection and review of the claimed defect, any defects in workmanship, defective materials, or defective parts at no charge to the original purchaser at the original site of installation.

### **This warranty applies to the following items:**

1. Cabinet front frames • 2. Cabinet doors • 3. Cabinet back panels • 4. End panels • 5. Shelves, trays
6. Cabinet tops and bottoms • 7. Drawer fronts • 8. Drawer bodies

***This warranty is nontransferable.***

### **Items Not Covered by the Limited Warranty**

1. Natural woods vary in color and exhibit color changes as they age. Cabinet colors darken or lighten over time due to sunlight, smoke, household cleaners, and other environmental conditions. This warranty does not apply to variations in color due to the foregoing.
2. Painted face frames, doors, and other painted parts of the product may eventually have visible cracking around the joint areas. These variations are considered the natural characteristics of the material in relation to their environment and are not covered under this warranty.
3. This Warranty does not cover deterioration due to normal wear and tear, accidental damage, Acts of God, misuse, or negligence.
4. This Warranty does not cover damage to the cabinetry as a result of modifications made to the cabinetry by the owner, dealer, installer, or any agent or employee of same unless such person is an employee of Kahle's Kitchens, Inc.
5. This Warranty does not apply to damage arising from extreme heat or temperature variations, water damage, humidity, reaction of the woods to various finishes, UV light, or warping due to heat or moisture generating or depleting products or appliances.
6. This Warranty does not apply to the purchaser's failure to properly store, install, assemble, adjust, use, or maintain the warranted cabinets.
7. This Warranty does not cover shipping and transportation charges to and from the homeowner, dealer, distributor, or manufacturer to obtain warranty service.
8. This Warranty does not cover labor charges for removal or installation of any defective cabinet, or part thereof.
9. This Warranty does not cover labor charges for re-installation of any cabinet repaired or replaced in whole or in part under the terms of this Warranty.
10. This Warranty does not cover damages to our products while in the hands of a common carrier. Damage or shortages must be noted on the appropriate freight bill and a claim filed with the carrier. All claims for damages or shortages must be made by the customer.
11. This Warranty does not cover any product used or installed in connection with Kahle's cabinets or cabinet work such as plumbing fixtures, gas or electric appliances, or countertops, or any other product not manufactured by Kahle's Kitchens, Inc.

12. This Warranty does not cover any products that are unfinished or primed only.
13. This Warranty does not apply to cabinet components including hinges, drawer glides, and other attached items which are not manufactured by Kahle's Kitchens, Inc., however such items will be covered to the extent by the component manufacturer's warranty.

#### **Discontinued Products**

The repairs or replacements of Kahle's cabinetry under this Warranty are contingent on the availability of the damaged items. If a warranty claim is filed after the product has been discontinued or modified, Kahle's Kitchens, Inc. reserves the right to honor the warranty in the following manner:

1. To repair or replace the affected component with a new component of the same style.
2. To repair or replace the affected component with a similar and comparable product to achieve a similar appearance and function to the original product purchased.

If components are replaced, Kahle's Kitchens, Inc. cannot guarantee the exact finish match to the existing product due to batch variations in finish colors, application techniques, and the natural aging process of the wood.

#### **Consequential Damages**

This Warranty does not cover damages for loss of time, loss of revenues, lodging, inconvenience or the cost of repairing or replacing other property which is damaged because of a defect in the product as well as other consequential damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

#### **Disclaimer**

THIS WARRANTY IS THE EXCLUSIVE WARRANTY GRANTED BY KAHLE'S KITCHENS, INC. AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, AND IS FURTHER LIMITED TO REPLACEMENT OR REPAIR OF DEFECTIVE PARTS OR MATERIAL ONLY. ANY IMPLIED WARRANTY OF MERCHANTABILITY, OR OF FITNESS FOR A PARTICULAR PURPOSE WHICH MAY ARISE AS A RESULT OF THIS WARRANTY, IS LIMITED AS SPECIFIED ABOVE, AS THE DURATION OF THIS WARRANTY.

*Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.*

#### **Submitting a Warranty Claim**

All Warranty claims under this Warranty for defective cabinets and accessories must be submitted to an authorized Kahle's dealer in writing and must specify the defect present in the cabinets and accessories. Included with such written explanation with the defect must be a dated purchase document. After Kahle's Kitchens, Inc. has had an opportunity to inspect the cabinets and / or accessories, they will, at their sole discretion, either replace the defective cabinets, parts or accessories, or repair any defects in the cabinets, parts, or accessories.

#### **Arbitration**

Any dispute that arises with respect to this Warranty that cannot be resolved amicably shall be submitted to arbitration under the rules of the American Arbitration Association (AAA) and any hearing held under these rules shall be held in Clarion, Pennsylvania.

# Policies

## Terms of Sale - Displaying Dealers

Discount - Please contact customer service.

Displaying Dealer Qualifications:

1. A Retail Showroom open during normal business hours.
2. A display of current Kahle's Kitchens products with at least five feet of base and wall cabinets.
3. Full set of current color selection samples. All color selection samples expire six months from manufacture.

## Terms of Sale - Open Account

Net 15 days

Accounts with balances over \$250 thirty days after invoice date will be placed on production hold.

Dealer agrees to pay a 1.5% per month finance charge on all past due balances. In the event that a Dealer's account becomes more than sixty (60) days past due and the account is turned over to an attorney for collection, the Dealer will pay all of Kahle's Kitchens, Inc.'s reasonable attorney fees, court costs, and expenses, and in the event it is necessary to initiate a lawsuit to collect the balance of Dealer's account, the Dealer consents to and agrees that the Court of Common Pleas of Clarion County, Pennsylvania, shall have exclusive jurisdiction.

When dealers postpone delivery or have their shipments postponed due to a breach in payment terms the following policy applies:

1. Kahle's Kitchens will charge a flat "storage fee" of 1% of Invoice Grand Total for each seven day period prorated on a daily basis to include weekends, holidays and plant shutdowns for items not shipped and/or delivered on their scheduled delivery date.
2. The dealer will automatically lose half of the 5% C.O.D. discount for anything stored up to five calendar days beyond the original ship date and the remaining C.O.D. discount will be forfeited on any storage lasting more than five calendar days.

## Terms of Sale - C.O.D.

A 5% discount is available for dealers that pay C.O.D.

To qualify for the C.O.D. discount, your account must be current and the check must be given to the driver at the time of delivery. It is your responsibility to insure that the driver receives your check.

See Terms of Sale - Open Account regarding postponed shipments and the C.O.D. discount.

## Terms of Sale - Non Displaying Dealers

Discount - Please contact customer service.

It is not our policy to establish dealers that do not qualify for our Displaying Dealer Program.

All New dealer accounts are set up under our Displaying Dealer Program and have 90 days to comply with our Displaying Dealer Program Qualifications. If, at the end of 90 days, a dealer fails to qualify for the Displaying Dealer Program, the dealer will be placed in the Non Displaying Dealer Program. Any dealer that remains in the Non Displaying Program for one year may be terminated.

## Terms of Sale - Small Parcel Shipping

Any orders shipped via courier or common carrier must be pre-paid (cash, check or credit card). For your convenience, we are able to keep your credit card number on file to expedite shipping.

## Terms of Sale - Freight

All Sales are F.O.B. Leeper, Pennsylvania.

Freight charges for shipments on Kahle's Kitchens delivery equipment are determined by the distance from Leeper, PA. The charges are a percentage of the net invoice before C.O.D. discounts.

- Zone 1 - 5.5% of net invoice, (\$125 net min freight chg.)
- Zone 2 - 6.5% of net invoice, (\$150 net min freight chg.)
- Zone 3 - 7.5% of net invoice, (\$175 net min freight chg.)

The dealer must have a representative at the delivery site to assist in unloading the product and to sign for the product. It is our responsibility to deliver the cabinets to the "tailgate" of the trailer. It is the dealer's responsibility to remove the cabinets from the truck.

## Terms of Sale - Job Site Delivery Policy

Job site deliveries are available only if the following guidelines are met:

1. All job site deliveries must have prior approval from our Customer Service Department.
2. To obtain approval, a Job Site Delivery Request Form must accompany your order. It is considered part of the order entry process and your order cannot be processed or scheduled for production until all information is received and the delivery approved.
3. The dealer must submit a detailed map of the delivery route and insure that the roads to be traveled can accommodate our trucks:
  - \_\_\_ 102" wide, 13' high
  - \_\_\_ overall length of 40'
  - \_\_\_ Gross Weight - 26,000 lbs.

4. The road must be legally accessible by such equipment.
5. The dealer must have a representative at the delivery site to assist in unloading the product and to sign for the product.
6. All job site deliveries must originate at the dealer's showroom or at a pre-arranged meeting location and time.
7. It is our responsibility to deliver the cabinets to the "tailgate" of the trailer. It is the dealer's responsibility to remove the cabinets from the truck.
8. Our driver has total responsibility for the safe and legal operation of the vehicle. The driver will not make deliveries where conditions, based on his judgment, are not suitable for entry, travel and exit. If risk to person or property exists, or if there is inadequate maneuverability, the driver must insist on alternate unloading procedures.
9. Job site charges will range from a minimum of \$100 to \$200 depending upon the distance traveled and the variance from normal planned truck routing.
10. Deliveries outside of your marketing area require prior approval and are subject to a higher charge.

### **Terms of Sale - Factory Pick Up**

Factory pick ups are available only if the following guidelines are met:

1. Arrival time must be pre-arranged with our customer service department at least 24 hours in advance. Pick up hours are Monday - Friday, 8:00am - 2:00pm.
2. Dealers must provide labor and any packing materials needed for cabinet loading. Kahle's will not be held liable for damage that occurs due to inadequately protected cabinetry.
3. Kahle's warehouse employees will carry the cabinets to the tailgate only. It is the driver's responsibility to arrange and secure the load.
4. It is the dealer's responsibility to inspect all items at the time of cabinet pick up.

### **Terms of Sale - Minimum Freight**

Minimum freight order may be delayed in scheduling until a truck route can be established. See "Terms of Sale - Freight" for minimum charges. If FedEx or common carrier is needed, an additional packing charge and the common carrier charge will be added to the invoice.

### **Display Program**

Dealer Showroom Displays will receive an additional 15% discount. Displays must be a minimum of five feet of base and wall cabinets. All other sales aids are priced at discount.

### **Lead Times**

All orders require a minimum of four to six weeks production time and will ship on the next available truck serving your market area. We will acknowledge the week of shipment upon final sign off and fax, or email a delivery confirmation at least one day prior to delivery.

### **Acknowledgments**

All orders will be acknowledged in two to three working days from the time we receive it. This acknowledgment will be faxed or emailed to you for verification that all items have been correctly entered. Although we do everything possible to insure that your order has been entered as you have specified, it is the dealer's responsibility to check the acknowledgment for errors or omissions and to return to us a signed acceptance of our interpretation of your order. Any product needing changes after sign off may incur a 30% charge, if noted to customer service before product entering the finish room. Any cabinet in the finish room needing changes will result in a total remake and a full cabinet charge. The original product will be finished and shipped to the dealer.

Job scheduling will not start until a blank sign off sheet has been received.

Please insure that you have submitted the proper appliance cutout and appliance panel order forms. Please respond as soon as possible to our inquiries to keep your job on schedule.

We use your floor plans to guide us in determining your order. We DO NOT verify that your order and drawing are correct and that the take off is complete and accurate.

### **Damaged Products**

Damaged products, noted at the time of delivery on our trucks, should be returned on the same truck. For products received via common carrier, file a claim with the carrier. Concealed damage, noted within 30 days of delivery should be reported to your factory representative to resolve the problem. Any concealed damage noted after 30 days from delivery, will be the responsibility of the dealer. Any product considered as defective in material or workmanship should be reported to your factory representative for inspection and returned to the factory for approval.

### **Return Goods Procedure**

In order to properly identify material returned to the factory, our procedure for handling returned goods is as follows:

1. Notify Customer Service, by fax or phone, the items you wish to return and the reason for the return.
2. Customer Service will issue a RETURN GOODS REPORT, and you will receive a copy by fax, email or mail.
3. Please attach a copy of the RETURN GOODS REPORT to each package being returned.
4. Only those packages with an attached RETURN GOODS REPORT will be picked up when our truck is at your facility.

5. The dealer is responsible for proper packaging of the items being returned.

6. Credit may not be issued if the above steps are not followed.

Please note that doors that have been already drilled for hardware will not be considered for concealed damage credit.

### **Warped Doors**

We manufacture our own doors under strict quality control so that warped doors are a rare problem. In most cases the cabinet has been racked during installation or the cabinet has been subjected to extreme humidity (below 25% or above 55% relative humidity). To check for warped doors, the door must be removed from the cabinet and placed back side down on a known perfectly flat surface. Determine the amount, if any, of the warp in the door. A door is considered to be warped when deflection exceeds 1/16" per lineal foot of the longest dimension. This dimension is determined with the door at rest on a flat surface. Warped doors must be returned to receive credit.

### **Modifications**

We have included in this catalog what is needed to produce custom cabinets for today's market place. By combining our cabinets and the modifications listed, most units can be priced. From time to time, there may be a special situation which cannot be accomplished using the listed features. We will be glad to quote you on these units. Please bear in mind that special cabinets are produced by our most skilled and highest paid employees and when non-standard configurations are used, there are costs involved in engineering the unit. You will provide the most cost-effective kitchen for your customer by using our standard cabinets and modifications.

### **Quotations**

When multiple modifications or special modifications are required on a cabinet it is recommended that the information be sent to us for quotation.

Special modifications or multiple modifications may result in manufacturing costs unforeseen by the customer.

Quotations will normally be returned within two working days for customer approval.

Quotations are good for the item being quoted only. If the same item is needed again later it is subject to being requoted and based on our experience, may be more or less.

Quotes are good for 60 days.

### **Rush Orders**

Hidden problems, oversights and damage will need to

be taken care of by a rush order. Please contact us to determine the time needed and to arrange the method of delivery. Rush orders for complete kitchen or bath orders can only be taken if production time is available and may incur a special handling fee.

### **Finish - Stain**

Variations in wood density and grain pattern make each piece of wood different. These variations, as well as the aging of samples cause differences in tone and shading and reflect the beauty of hardwood. This should be explained to the customer. Color blocks and samples should be used as a representation of the color of the product and not an absolute sample of the exact color of the whole kitchen. Finished product will normally change with age. The rate of change is determined by the wood specie and exposure to light and atmospheric conditions beyond our control. **SAMPLES SHOULD BE KEPT CURRENT TO SHOW AS CLOSE A REPRESENTATION AS POSSIBLE TO THE FINAL PRODUCT.**

**ALL WOOD CONTAINS A NATURAL COLOR RANGE AND GRAIN VARIATION. WHEN THE WOOD IS FINISHED NATURAL OR WITH A LIGHT STAIN COLOR, THESE VARIATIONS ARE MORE NOTICEABLE AND NOT CONSIDERED A DEFECT.**

### **Finish - Painted**

Painted finish products have certain characteristics which need to be explained to your customer. All wood experiences dimensional change through exchanging moisture with the surrounding atmosphere. These changes, although slight, will cause hairline cracks to appear at the joints. **THIS IS CONSIDERED A NATURAL CHARACTERISTIC OF PAINTED FINISH AND NOT A DEFECT.** In an effort to eliminate movement as much as possible, MDF center panels will be used in all painted door applications except those with beaded center panels or distressed finishes. Dealer must specify if solid wood center panels are preferred realizing that movement within the center panel will likely become evident showing glue lines and more extensive cracking at the joint areas.

Along with our sanding effects, we are making available an option to use two different colors on a painted kitchen. You may specify the base color coat and the top color coat. **THE AMOUNT OF SANDING INTO THE BASE COLOR AND INTO THE WOOD CANNOT BE CONTROLLED TO ANY GREAT EXTENT.** This option is at no additional charge as long as both colors are in our standard palette. Stains and paints cannot be combined.

### **Finish - Glazed**

Glazed finishes are artistic, hand applied accents designed to emphasize the characteristics and profiles of a product and create variations in shading. The effect of a glazed product varies due to many

different circumstances. The profiles of a part as well as the size, surface, wood specie and construction all affect the final look of a product. Flat panels tend to wipe "cleaner" than parts with profiles. They appear lighter because there is no place for the glaze to "hang up". Veneer panels tend to hold more glaze than solid wood parts and therefore are slightly darker. Larger parts take longer to wipe so they will tend to be slightly darker than smaller parts. VARIATIONS ON SHADING AND HANG UP ARE INHERENT IN THIS TYPE OF PRODUCT AND ARE NOT CONSIDERED A DEFECT.

The purpose of glazed finishes is to take a new product and make it appear old. The effects of time, use, misuse or other ambient conditions are not linear so no two surfaces will be identical on aged furniture. Likewise, the attempt to create an "aged look" on a new product will not produce identically appearing surfaces.

We recommend that for a glazed finish order the dealer first order a sample door in the finish of the order. The door may be signed by both the customer and the dealer and returned to the factory to aid our finishing people. This extra step does add time to the order process and is a dealer option.

**KAHLE'S KITCHENS, INC. WILL NOT BE HELD RESPONSIBLE TO REPLACE ANY PRODUCT DUE TO THE AMOUNT OF GLAZE HANG UP.**

The backs of doors will not be glazed but will reflect the initial stain or paint color. It will have the full color and finish coats and will be clean with no smudges or discoloration caused by the glaze.

### **Custom Color Match**

Custom Color Matches are useful when the color your customer is looking for is not in Kahle's standard palette. All color matches are subject to production management approval. Items being sent in for match MUST be accompanied by a Custom Color Match Form (see Appendix). If you have already established a color match with us and sell another job that requires that same color, the color match charge will be cut in half. Please note that color matches are only a COLOR match. Special instructions for sheen, distressing, sanding, etc. need to be specified and charged accordingly. Also, please understand that sheen levels may effect the overall appearance of color matches. Representative samples should be ordered for customer approval. In order to attain paint / glaze or stained / glaze color matches it is often necessary to customize both the paint / stain and the glaze. Charges will be applied accordingly.

### **Finish - Unfinished**

Unfinished product does not have the protection of our finishing process. It is, therefore, much more susceptible to dimensional changes due to fluctuations in temperature and humidity. We also have no control over

the quality or type of finish that will be applied. WE DO NOT RECOMMEND OR WARRANTY THIS OPTION FOR THESE REASONS.

### **Sanding and Distressing**

Sanding effects produce an aged, worn look in different degrees:

First is CLASSIC which is produced by rounding off corners and edges of the faces of doors and drawer fronts prior to staining or painting. Accessory items like molding and wainscot panels are also sanded in this way. Frames are sanded normally. This produces a look for those who want the aged look but not dramatic color contrasts. Edges or corners that are rounded through can be darker on stained product.

Second is RUSTIC which is produced by sanding through corners and edges of doors and drawer front faces after stain and sealer or paint color coats have been applied. This will round off corners and edges to varied degrees. Accessory items will also be sanded in this fashion. Frames are sanded normally.

Third is PRIMITIVE which is designed to give an aged sand-through look. In addition to the edge and corner sand-through of RUSTIC, PRIMITIVE components are also sanded through on flat faces

Fourth is DISTRESSING which is an artistic rendering of natural wear and tear that could take place over time. The distressed look is applied by hand using industry techniques to create a "worn" look. The nature of these techniques in conjunction with other variables, including species, color and door design ensure the uniqueness of each job, assuring that no two jobs are alike. Distressed techniques include: Joint Cracks, Splits, Dents, Rasping, Bird Pecking, Gouges, Worm Holes and Grain Tears.

Please Note: Plywood panels and front frames will never be sanded through.

EFFECTS HAVE BEEN CREATED TO REPRODUCE THE LOOK OF YEARS OF WEAR. DUE TO THE UNIQUE NATURE OF THESE FINISHES, KAHLE DOES NOT GUARANTEE THAT ANY TWO JOBS OR ANY TWO PARTS WITHIN A JOB WILL BE ALIKE. SAMPLES ARE USED TO REPRESENT THE FINAL PRODUCT BUT CANNOT SHOW ALL THE POSSIBLE VARIATIONS. VARIANCES IN THESE FINISHES ARE COMMON AND WILL NOT BE CONSIDERED AS REASON FOR REPLACEMENT.

We recommend that for sanding effect and distressing technique finishes that the dealer first order a sample door in the corresponding style, sanding, and finish as the order. The door may be signed by both the customer and the dealer and returned to the factory to aid our finishing people. This extra step does add time to the order process and is a dealer option.

## **Characteristics of Hardwood**

Our cabinetry is constructed of many pieces of solid hardwoods and veneers. We strive to keep our hardwoods as consistent as possible. DIFFERENCES IN COLOR, DENSITY, SMALL KNOTS, MINERAL STREAKS, SAP STREAKS AS WELL AS NORMAL GRAIN VARIATIONS DO EXIST AND CANNOT BE HELD CONSTANT. THESE CHARACTERISTICS ARE CONSIDERED TO BE THE NATURAL BEAUTY OF WOOD AND SHOULD BE EXPECTED IN OUR PRODUCT.

## **Rustic Hardwoods**

Kahle's Rustic grade is unselected for color. In cherry this means the color will range from the white sapwood to the dark reddish-brown heartwood. Naturally occurring defects such as knots, split knots, gum streaks, splits, pits, bird pecking, worm holes, etc. are considered desirable in this grade and are acceptable. Rustic hardwood will be used to manufacture doors and drawer fronts. All plywood parts (veneered door panels, end panels, finished sides, matching wood interiors, etc.) will be manufactured using Kahle's standard select species inventory, so they will not reflect any of the rustic characteristics. Kahle's cannot guarantee that hardwood components such as face frame stock, solid stock, moldings, etc. will contain any rustic qualities. Due to the nature of this grade it is imperative that customers view a sample front before making their final decision. The frequency and type of defects which occur naturally are completely random. No guarantee can be made as to the extent or array of rustic qualities present in any given piece.

## **Rigid Thermo-Foil doors**

Rigid Thermo-Foil doors are made by heating and pressing the PVC laminate onto a Medium Density Fiberboard panel that has been machined for a door panel and profile. THE VERY NATURE OF THE PROCESS AND THE MATERIAL USED CAUSES SOME SLIGHT IMPERFECTIONS TO OCCUR. SINCE WE DO NOT MANUFACTURE THIS DOOR, WE WANT YOU TO BE AWARE OF THE MANUFACTURER'S WARRANTY TO US:

TELEGRAPHING - some machining lines or color variance in the MDF may telegraph through the PVC laminate. If not visible in normal lighting at a distance of more than two feet, they are not considered defects.  
HEAT TOLERANCE - RTF doors and drawer fronts should not be used in an area where the temperature might exceed 165 degrees. Fillers or extended stiles should be used.

WARPAGE- a door up to 24" x 48" is guaranteed against warpage of no more than 1/8". Any larger door - 1/4".  
YELLOWING - guaranteed not to yellow for a period of one year.

DELAMINATION - guaranteed not to delaminate for a period of one year.

WARRANTY CLAIMS - all doors, for warranty claims, must be returned to the manufacturer to determine if it

meets specifications. Credit will not be issued until the manufacturer has issued credit to Kahle's Kitchens, Inc. Please remember that this line was developed to give you a low cost alternative to using our higher priced solid finish products. We have three different manufacturers' products combined in this cabinet - RTF door, solid finish front frame and melamine end panel.

We feel that we have achieved an excellent match between the three components; but due to their different reflective characteristics, there may appear to be more differences in some lighting conditions than in others. In addition, all white material will exhibit some yellowing over time. This is caused from the ultra violet spectrum that is in all light sources. The different material in the cabinet will be affected at a different rate.

## **Disclaimers**

Kahle's Kitchens, Inc. has elected to not require disclaimers be signed by its dealers or their customers. We feel this creates a negative situation in the selling process. This does not abdicate the dealer's responsibility to educate and inform the customer during the sales process. We feel the dealer knows better than we do how and when to introduce this in the selling process. The dealer is free to use whatever disclaimers considered necessary to insure a satisfactory level of customer understanding. We have, in this document, tried to provide the dealer with as detailed description of our product as possible. Upon request, we will provide a written copy of the items in this document that the end customer needs to be fully informed. We are, however, the final arbiter on whether our product meets our standards.

## **Quality Alerts**

Quality Alerts are a system to aid our production people in eliminating problems that can occur in the manufacturing process and to communicate with our customers the resolutions of any problems that may have occurred. Any communication regarding problems should be documented on a Kahle's Kitchens Quality Alert Form and reviewed with your sales representative. The sales representative will add his/her recommendations and forward it to manufacturing for action. When the problem has been resolved, the action taken will be reported back to you on a copy of the form.

## **Catalogs**

All catalogs, printed and electronic, remain the property of Kahle's Kitchens, Inc. and must be returned to Kahle's Kitchens upon request. Each catalog will be registered to an individual to insure that all updates are distributed completely.

# Case Modifications

Add Angle			Add Bracket Foot		
		<p>Adds a Base or Tall Transition Cabinet to adjacent cabinet without incurring a build as one charge. Combined width cannot exceed 48" without a partition. Base cabinet should have full depth shelves. Recessed toe included on 12 1/2" side.</p>			<p>ABFR: A flat bracket foot is applied to the face frame only, flush with the right side.            ABFL: A flat bracket foot is applied to the face frame only, flush with the left side.            ABFB: A flat bracket foot is applied to the face frame only, flush with both sides.            Molding not included. Must use HOLDUP option on full overlay and framed full access.</p>
ADD ANGLE TO BASE LEFT	ADDANGLBL	\$680	ADD BRACKET FOOT BOTH	ABFB	\$232
ADD ANGLE TO BASE RIGHT	ADDANGLBR	\$680	ADD BRACKET FOOT LEFT	ABFL	\$166
ADD ANGLE TO TALL LEFT	ADDANGLTL	\$1,360	ADD BRACKET FOOT RIGHT	ABFR	\$166
ADD ANGLE TO TALL RIGHT	ADDANGLTR	\$1,360			

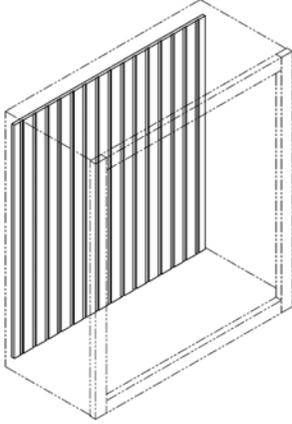

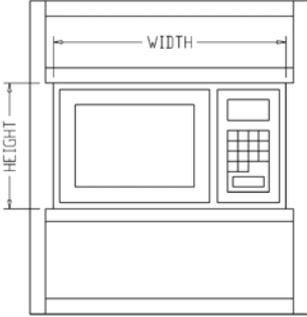

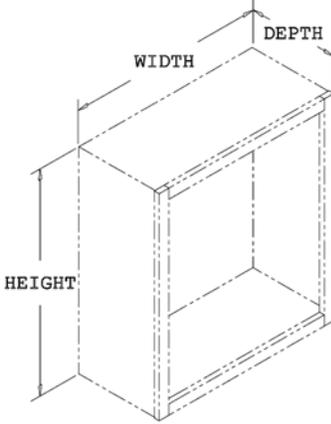

Add Drawers to Cabinet			Add Profile Bracket Foot		
		<p>Adding drawers to a wall cabinet will increase the height by 6" per drawer. May also be used to add drawers to other cabinets but requires a detailed frame drawing.            Note: "SC" after code adds full extension soft close to the drawers.            Note: A 30 1/2" wall cabinet with DRAW1 will be 36" overall. Top section will match the standard 30 1/2" wall cabinet.</p>			<p>APBFR Profiled bracket foot applied to face frame only, flush with right end.            APBFL Profiled bracket foot applied to face frame only, flush with left end.            APBFB Profiled bracket foot applied to face frame only, flush on each end - cap molding continues across the full width of the frame.            Must use HOLDUP option on full overlay and framed full access.</p>

## **Design Notes and Specifications...**

### **All Cabinets**

End panels are unfinished - specify all finished ends.  
End skins are available for repair work.

### **Appliance Panels**

Available as flat panels or door style panels. Must use Kahle's Appliance Panel Order Form.

### **Base Cabinet Tops and Bottoms**

1/2" plywood with the interior laminated with melamine (standard case) or prefinished natural wood (deluxe case).

### **Base Cabinets**

Single door through 24"  
Single drawer through 30"  
Butt doors available 27" to 36" at no extra charge.  
Butt doors on 24" are available - price as next larger size.  
Butt door base cabinets always have one wide drawer front.

### **Base Cabinets, Corner**

Square Corner Base has one fixed shelf.  
Diagonal Corner Base has one fixed shelf.

### **Blind Corner Cabinets**

See detail design and installation specifications in the Base and Wall sections.

### **Butt Doors**

Butt doors available 27" to 36" at no extra charge.  
Butt doors on 24" are available - price as next larger size.  
Butt door base cabinets always have one wide drawer front.

### **Cabinet Backs**

1/4" plywood with the interior laminated with melamine (standard case) or prefinished natural wood (deluxe case).

### **Cabinet Side Panels**

1/2" plywood with the interior laminated with melamine (standard case) or prefinished natural wood (deluxe case). End panels are unfinished - order End Skins to finish on the job or have factory installed finished ends.

### **Chef's Pantry - 36"**

Two door units with five shelf canned good storage.  
Two swing-outs with shelves.  
Five adjustable shelves in rear of cabinet behind each swing-out and one-half depth shelf in the upper section.

### **Diagonal Corner Cabinets - Full Overlay**

In order to provide proper clearance in diagonal corner cabinets the exposed frame is increased from 1/4" to 1".

### **Door Panels**

Doors or appliance panels wider than 24" or exceeding 48" in height will be made with two panels.

### **Door Style Ends**

A door style end is attached to the cabinet side.  
Do not need to specify finished end.

### **Drawers**

5/8" hardwood dovetailed drawer body with 1/4" plywood bottom dadoed into all sides. Drawers will be branded with Kahle's Kitchens logo unless otherwise specified - see Appendix for form.

### **End Skins**

1/32" Wood veneer panels are available to finish exposed ends.

### **Extended Stiles**

Extended stiles are available in 3" widths. Specify widths less than 3". Cabinets without front frames cannot have extended stiles.

### **File Drawer Cabinet**

One 8" high drawer opening.  
One 12" high drawer opening with full extension under mount glides.

### **Fillers**

Fillers are available for the various height cabinets in 3" or 6" widths. Overlay fillers are also available.

### **Finish**

Stain - stain, sealer and a catalyzed varnish top coat.  
Solid or painted finish - pigmented varnish with a catalyzed varnish top coat.

### **Front Frame Reveal**

Standard and Partial Overlay reveal 1" of frame.  
Full overlay reveal wall: 1/4" of frame, base: 3/4" at top, 1/4" on sides and bottom.  
Framed Full Access reveal wall: 1/8" of frame, base: 3/8" at top, 1/8" on sides and bottom.

### **Front Frames**

Frame Full Access overlay will be 1 1/2" or 3/4" x 3/4" select hardwood joined with mortise and tennon at each joint. Please see FFA Specifications for other information.

All other overlays will be 1 1/2" or 2" or 3" x 3/4" select hardwood joined with mortise and tennon at each joint. The minimum width for a cabinet front frame stile is 3/4". The minimum width for a cabinet front frame rail is 1". AN ARCH ON A FRONT FRAME WILL NOT BE BEADED UNLESS QUOTED AND SPECIFIED. Cabinets without front frames cannot have extended stiles. See Frame Openings and Reveals Section for cabinet frame configurations.

### **Hinges**

Standard overlay - 1/2" overlay knife hinge.  
Full Overlay - 1 1/4" overlay concealed hinge.  
Partial overlay - 1/2" overlay concealed hinge.  
Framed Full Access - 5/8" overlay concealed hinge.  
Inset doors - concealed adjustable hinge, Faux concealed, Faux concealed soft close, or optional steeple hinge.

### **Microwave Cabinet**

Depth is 12 1/2". Opening height is 18".  
18" deep shelf is shipped loose.  
MWOOD is standard.  
Changes require MFRAME charge.

### **Oven Cabinet - Double**

Must specify cutout opening.  
Cabinet is supplied with two doors on top and one drawer on the bottom. Cutout may require that the drawer be eliminated. Must use Kahle's Order Form #17.

### **Oven Cabinet - Single**

Must specify cutout opening.  
Cabinet is supplied with two doors on top and one drawer and two doors on the bottom. Cutout may require that the drawer be eliminated. Must use Kahle's Order Form #16.

### **Oven Cabinet Microwave**

Must specify cutout openings.  
Cabinet is supplied with two doors on top and one drawer on the bottom. Cutout may require that the drawer be eliminated. Must use Kahle's Order Form #18.

### **Overlay Fillers**

Overlay Fillers include just the overlay portion of the filler. Order the basic filler as BF3 and the overlay as BF3OL.

### **Roll Out Tray Mounting Kit**

Kit consists of four upright notched pieces and pieces to attach to the case members of the roll out tray suspension. This allows the roll out tray to be positioned in any of the notched locations.

### **Roll Out Trays**

The price for roll out trays includes the installation. If one tray is ordered it will be placed in the bottom of the cabinet leaving any adjustable shelves in place. If more than one roll out tray is ordered, it will replace the next shelf above the first roll out tray. Any other location than as above must be specified. Roll out trays use a side mounted epoxy coated glide. We do not recommend the use of roll out trays in wall cabinets. The slight lifting of the unit when pulling out can be enough to bypass the stop mechanism.

### **Shelves**

3/4" Laminated Engineered Wood. All shelves are fully adjustable with a 5mm bore and shelf rests. The number of shelves in a cabinet is dependent on the vertical opening size.  
Over 39" High - four shelves.  
39" high - three shelves  
33" high - two shelves  
27" high - two shelves  
18" high - one shelf  
Less than 18" high - no shelf  
Shelf Depths:  
Base - 16"  
Wall - 11"  
Tall - Top 11" - Bottom - 22 1/2"

### **Sink Base Cabinets**

Same door configuration as base cabinets. Full cabinet top replaced with supports.

### **Sink Fronts**

Are not trimmable - order extended stile.

### **Toe Kick**

Black melamine toe kick is available at no charge loose to complete the job.  
Optional stained toe kick is available. Specify the amount of 8' lengths needed.

### **Vanity Depth**

Vanities are available in 18" or 21" depth. Specify the depth by adding either 18 or 21 to the size you are ordering. i.e. VB3018.

### **Wainscot Panels**

Specify panel layout. Only cope and stick doors are available.  
We do not do beaded inset wainscot panels - they may be ordered as wainscot frame and doors.

### **Wall Cabinet Dimensions**

Wall Cabinet Depth - 12 1/2"  
Standard Wall Cabinet Height - 30 1/2"

### **Wall Cabinet Tops and Bottoms**

1/2" plywood with the interior laminated with melamine (standard case) or prefinished natural wood (deluxe case). Bottom recess has the front frame, bottom and hanging rail stained. Interior melamine color (standard case) is visible at the bottom sides of all wall cabinets.

### **Wall Cabinets**

Single door through 24"  
Butt doors available 27" to 36" at no extra charge.  
Butt doors on 24" are available - price as next larger size.

### **Door Design Notes and Specifications**

#### **All Arched and Cathedral Doors**

Are not available for cabinets less than 9" wide. A square panel will be used for these cabinets.

#### **Butt Doors**

Butt doors available 27" to 36" at no extra charge.  
Butt doors on 24" are available - price as next larger size. Butt doors are not available on the Kane Round door.

#### **Door Panels**

Doors or appliance panels wider than 24" or exceeding 48" in height will be made with two panels.

#### **Double Panel Doors**

Horizontal double panel doors, Carnegie and Bucks County, are not available in cabinet widths less than 12". A single panel will be supplied. Vertical double panel doors, Latrobe, Duquesne and Braddock, are not available in cabinets less than 21" high. A single panel door will be supplied.

#### **Machine Edge on Doors**

You must specify the edges that are to be square by indicating the lip as MI - Machine Interior, ME - Machine Exterior or MB - Machine Both.

#### **Miter Doors**

Miter Doors use a 1/4" flat panel on 9" cabinets and five piece drawer fronts.

#### **RTF Doors**

5/4 Raised drawer heads are not available in RTF.

### **Furniture Collection Design Notes**

#### **Cabinet Heights**

The Furniture Collection is designed with tall units finishing at 78" and base units at 28 1/2". When the top is added, the overall height of the writing surface will be 30".

If your project calls for a floor to ceiling application, or you want a more massive look, our standard size cabinets will meet those requirements.

### **Standard Cabinets**

Standard construction for all cabinets in the Furniture Collection is the same as the Kitchen and Bath Collection. Special consideration should be given to the use of matching wood interiors to achieve the furniture look.

Other modifications are available to further enhance your design. Flush Toe Kicks should be used on most desk and entertainment center applications. Flush Finished Sides or Wainscot Sides will add to the custom look.

When using the various base units for free standing desks, consider having the factory apply the finished back.

## FFA “Framed Full Access” Specifications

\*\* Available in standard case (NC premium) and deluxe case (15% up charge premium)

---

### Case Spec:

Stiles: 3/4” (See general notes for exceptions.)

Top Rail: 1.5”

Bottom Rail: 1.5”

Reveals: 1/8” (Note: Base top reveal 3/8”)

Widths greater than 36” will have a 1.5” center stile

Base cabinet middle rail: 1.5”

Shelf: Standard depth

Drawer Box:

\*Standard case-

Standard undermount glides will be used.

\*Deluxe case-

Under mount soft close full extension glides will be used.

---

### End Panel Specs:

Door style ends: 1/8” reveal

\*Must specify to “Hold style ends flush with the front” of the door face- (Hold flush with doors on the front).\*

Standard sides: 1/8” scribe on finished and unfinished ends.

Optional sides: Flush and near flush available.

Peninsula sides and wainscot sides will receive 1.5” stiles and 1.375 overlay

---

### Accessories Notes:

\*Standard case-

Drawer box upgrade:

FULLUM or FULLUMSC

(Refer to case modification page 5)

Rollouts-

FULLUM or FULLUMSC

(Refer to Accessories page 12)

---

### General notes:

- 1) “FFA Exceptions” Cabinets whose 1.5” stile construction does not change— Base Fold Out Table, Lazy Susan Revolve (BLSI), Open Shelf Desk Base, Wall Tambour, Tri View Mirror Cabinet, Medicine Cabinet, Wall Bookcase, Wine Rack Lattice, and Diagonal cabinets.
- 2) Diagonal cabinets will have partial overlay on the width, FFA reveals on the height.
- 3) All other shaped cabinets subject to approval.
- 4) Any wall stacked “built as one” cabinet will have 2.875” middle rail. Second floor modification will have 1.5” middle rail.
- 5) When using the BADS, WADS, and TADS modifications they will be treated as a diagonal cabinet. (Base add diagonal stile, Wall, Tall) These will have 1.5” stiles.
- 6) Toe Kick drawer modification on FFA overlay requires 1.5” stiles on the toe frame.

### Oven cabinets:

Please note .75” stiles will be used. Please see forms 16, 17, and 18. Please fill out specs and send to Kahles as usual, 1.5” minimum rails.

BEA24SO

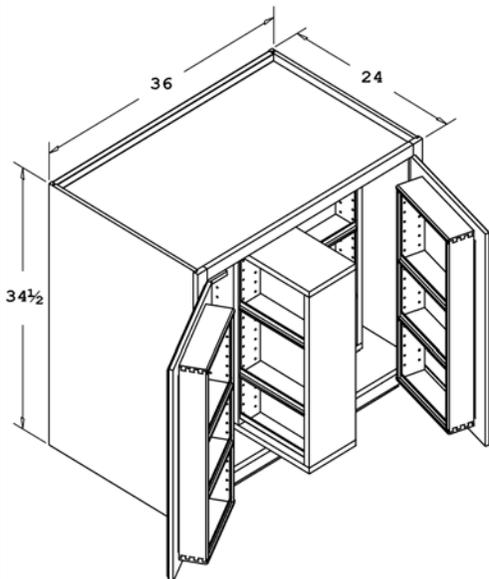

BEA24

Open version of BEA24S. Has rounded beaded back standard. MWOOD included. Toe kick platform shipped loose. Floor and shelf have plate groove. If plate grooves are not wanted, please specify. Shelf may be notched behind face frame for rope lighting - please specify.

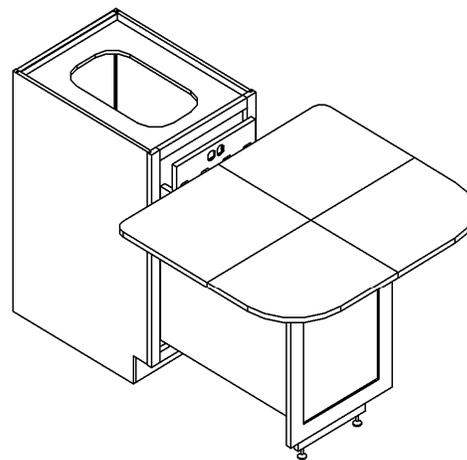

**BASE PANTRY**

**BASE FOLD OUT TABLE**

BP36

FOT18

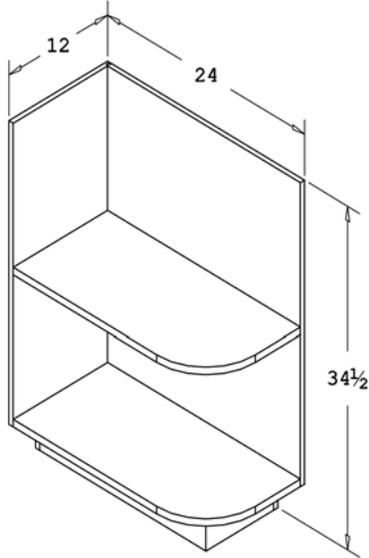

Unit is designed to allow the swing outs to clear when placed against a wall. Each door storage unit and double sided swing out has two adjustable shelves on each. Cabinet has two half depth adjustable shelves on each side in the back.

18" Base cabinet houses a pullout table. Table unfolds to 35 3/4" wide by 31" deep. Table top is constructed from 3/4" UV coated engineered plywood with vinyl t-mold edge. Not available in inset, beaded inset or 3/8" inset. 5 piece drawer fronts not available. Unit can not be modified.

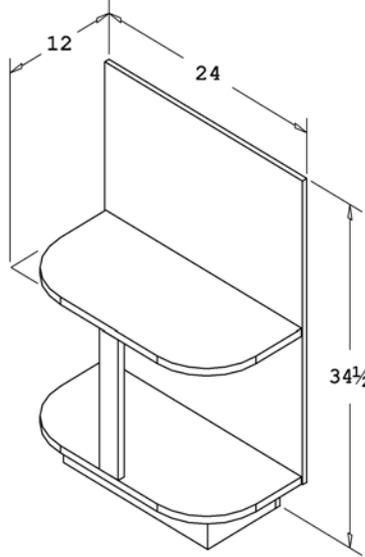

**BASE END SHELF**

**PENINSULA END SHELF**

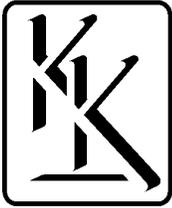

BESL24  
BESR24

PES24

Sides and back are 1/2". Shelves are 3/4". Radius on the front is 6".  
BESL - LEFT MOUNT (SHOWN)  
BESR - RIGHT MOUNT

Back is 1/2". Shelves are 3/4" thick . Radius on shelves is 6". A 2 1/4" support rail is added to the front of the shelves.

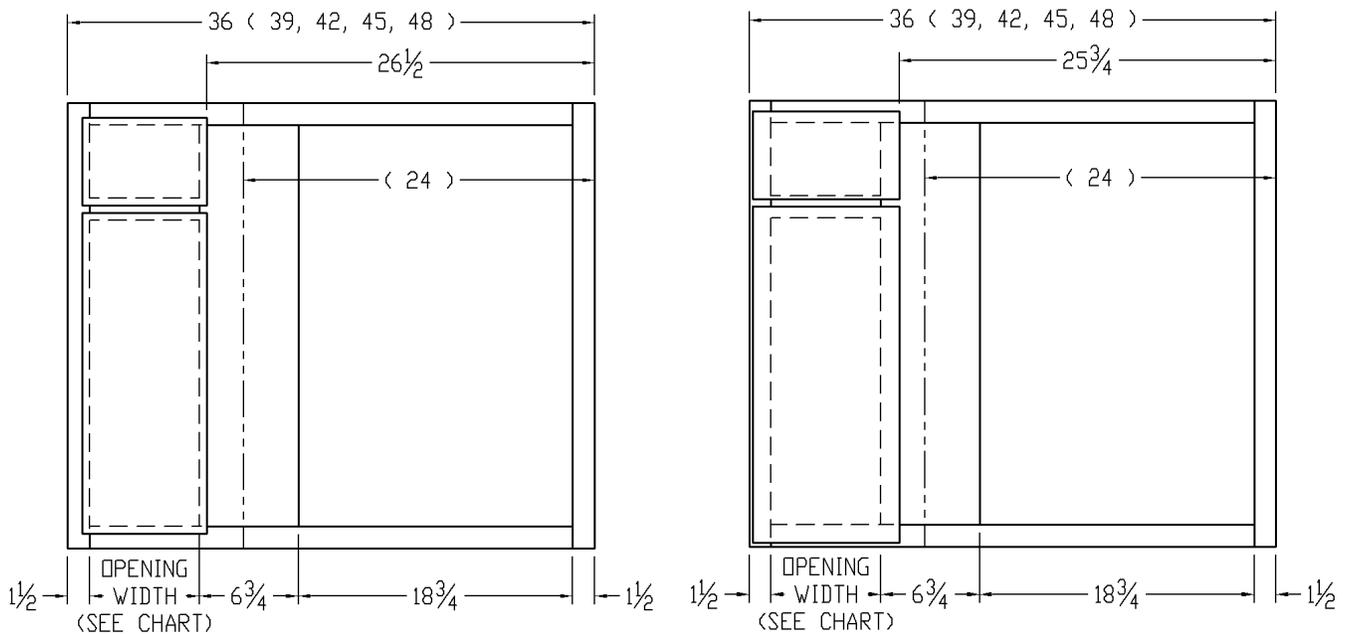

## Base Blind Cabinets

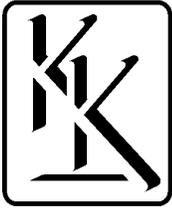

Cabinet	Cabinet Width	Can be Pulled to	Opening Width
BBC36	36"	39 1/2"	7 1/2"
BBC39	39"	42 1/2"	10 1/2"
BBC42	42"	45 1/2"	13 1/2"
BBC45	45"	48 1/2"	16 1/2"
BBC48	48"	51 1/2"	19 1/2"

The adjacent cabinet is 24" deep with a nominal door thickness of 1". We recommend, in all cases, that blind base cabinets be pulled from the corner to allow door and drawer clearance and that the adjacent cabinet has an extended stile to be used as a filler.

Standard Overlay

Full Overlay

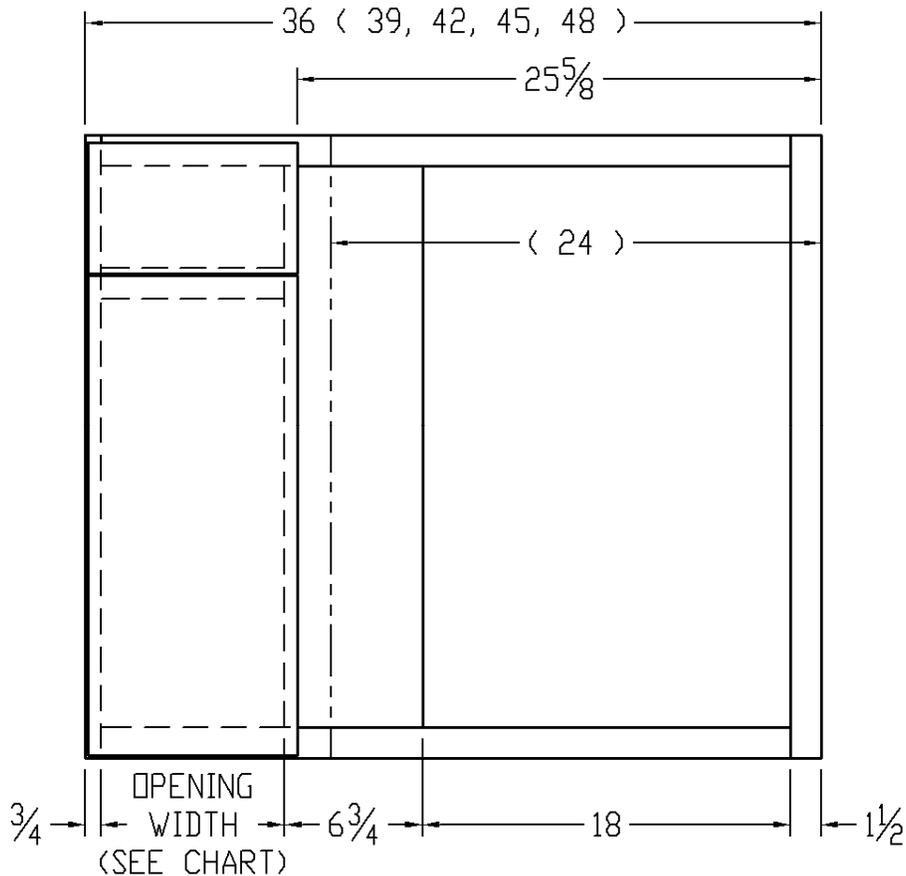

## FFA Base Blind Cabinets

Cabinet	Cabinet Width	Can be Pulled to	Opening Width
BBC36	36"	39 1/2"	9"
BBC39	39"	42 1/2"	12"
BBC42	42"	45 1/2"	15"
BBC45	45"	48 1/2"	18"

Specify the height of the refrigerator opening. Use TROL and/or TROR to reduce horizontal opening. Minimum stile width is 1 1/2". The height of the refrigerator opening may be up to 12" less than the overall cabinet height. There is no back on the refrigerator opening. Exterior sides are finished. Use MWOOD option for finished interior. BAO option not available.

## PANEL ORDER FORM FORM 1 WAINSCOT PANELS

Please use this form to obtain a quotation

### IMPORTANT INFORMATION

Not available in arch door styles , RTF door styles, Miter door styles, or inset and beaded inset door styles.

The information given on this form is solely the responsibility of the customer. Panels will be produced to the specifications supplied . Warranty is limited to the quality of materials and workmanship. Kahle's Kitchens accepts no responsibility for incomplete or inaccurate information provided on this form.

Cutting or trimming of panels for handles, hinges , etc. must be done in the field. Kahle's Kitchens retains the option to turn down orders that do not work within our manufacturing process or we deem to be poor construction.

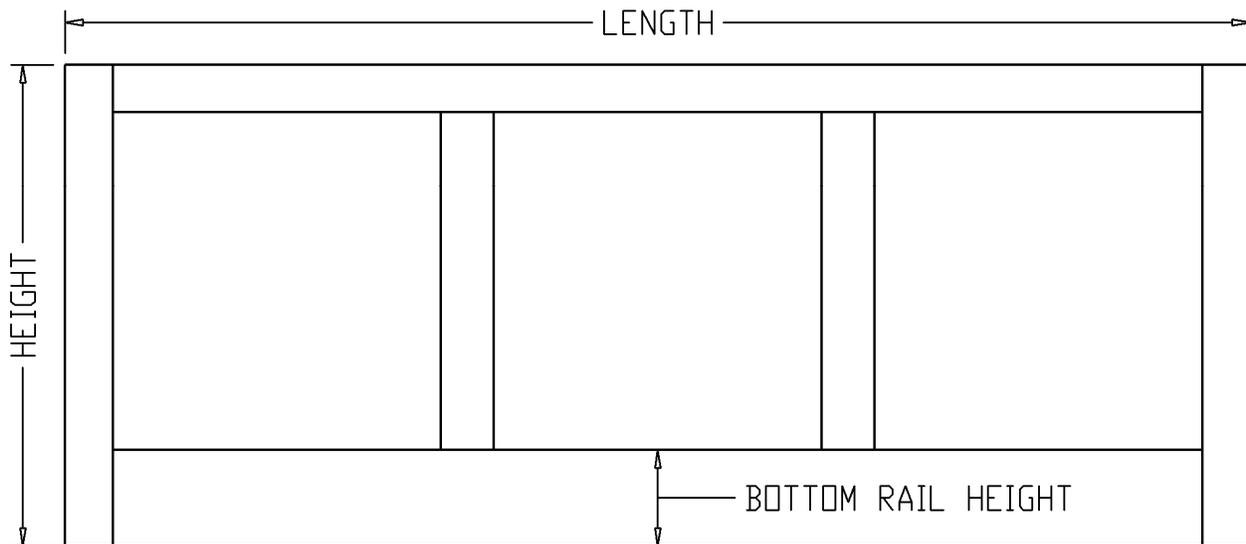

**Standard Construction:** Stile width will match door stile framing, cope and stick construction. Matching top and bottom rails to align with a full height base door panel or wall door panel. Maximum panel width is 24". The use of special width stiles and rails must be quoted on an individual basis and are usually subject to a 20% up charge. Outside edge is a machine edge.

OVERALL LENGTH \_\_\_\_\_ (MAX. 110")

## APPLIANCE PANEL ORDER FORM FORM 13

Please use this form to obtain a quotation

### IMPORTANT INFORMATION

Doors are finished and attached to a 1/4" thick finished plywood panel. Dotted lines represent where the arches will be by default if an arched door style is requested. The customer must note on this form if an arched door style is used and arches are not required on the appliance panels. Doors under 6" may require a solid slab depending on the door style.

The information given on this form is solely the responsibility of the customer. Panels will be produced to the specifications supplied. Warranty is limited to the quality of materials and workmanship. Kahle's Kitchens accepts no responsibility for incomplete or inaccurate information provided on this form.

## APPLIANCE PANEL ORDER FORM FORM 15 FRAME & DOOR

Please use this form to obtain a quotation

### IMPORTANT INFORMATION

Dotted lines represent where the arches will be by default if an arched door style is requested. The customer must note on this form if an arched door style is used and arches are not required on the appliance panels. Doors under 6" may require a solid slab depending on door style.

The information given on this form is solely the responsibility of the customer. Panels will be produced to the specifications supplied. Warranty is limited to the quality of materials and workmanship. Kahle's Kitchens accepts no responsibility for incomplete or inaccurate information provided on this form.

Cutting or trimming of panels for handles, hinges, etc. must be done in the field. Kahle's Kitchens retains the option to turn down orders that do not work within our manufacturing process or we deem to be poor construction.

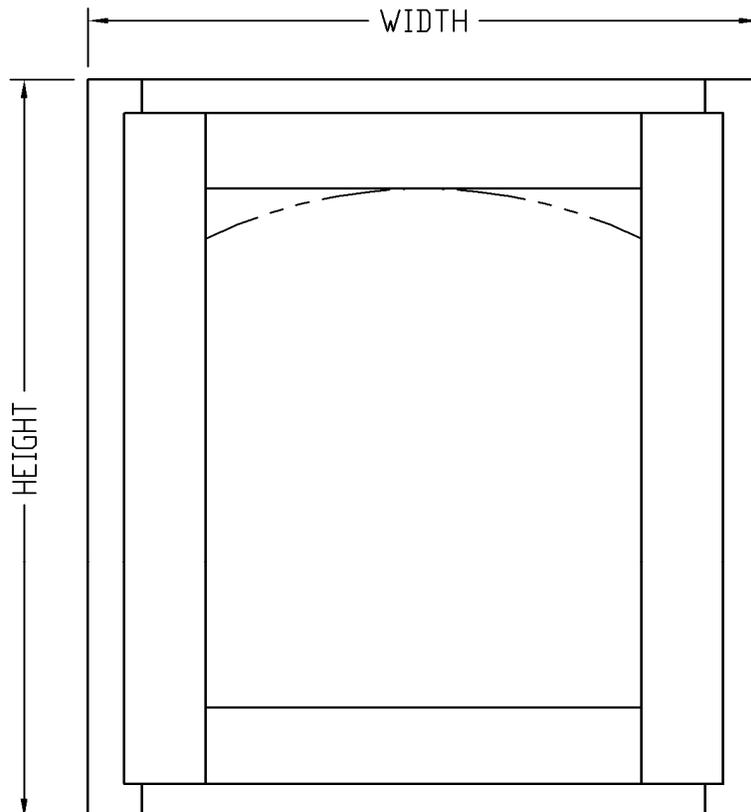

**Standard Construction:** Overlay doors are blocked to the frames and fastened shut. Inset doors are fastened to the frames with 1/4" thick plywood strips or a full 1/4" plywood backer. Doors are finished front, back, and all edges. The front frame material used will not have any grooves. Frames are finished on the face and edges. Please specify if you want finished on the back. Frame sizes can be held within 1/16". Frame, door, and overlays are all the same as standard cabinet construction.

**PLEASE SPECIFY OVERLAY ABOVE. FRAMED FULL ACCESS, FULL, STANDARD, PARTIAL, BEADED INSET, AND INSET.**

**SPECIFY: (INSET or BEADED INSET)** Please specify whether a full 1/4" plywood backer panel is to be used or 1/4" plywood strips. Note a full 1/4" backer will make the panel 1" thick. Please add the current 1/4" plywood charges with this option. If 1/4" plywood strips are requested, please add \$155.00 per door and drawer opening. The thickness will remain 3/4" thick.

## **Kahle's Kitchens, Inc.** **Request not to Brand**

Kahle's Kitchens will brand all drawer boxes with their custom logo unless otherwise specified. We understand that there may be dealers that would prefer their drawers not be branded with Kahle's Logo. If you do not wish to have your drawer boxes branded please fill out the information below and fax it back to us. Please keep in mind that we cannot offer the option to brand one job and not the next. If this form is returned we will not brand any of your orders until further notice.

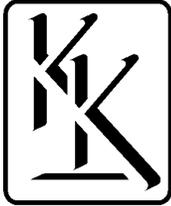

Kahle's will continue to brand private dealers already set up in that program. If you would like information on private label branding please contact your sales representative.

**JOBSITE DELIVERY FORM**

Dealer Name: \_\_\_\_\_ Dealer Phone #: \_\_\_\_\_

Customer Name: \_\_\_\_\_ Site Phone #: \_\_\_\_\_

Delivery Address: \_\_\_\_\_  
 \_\_\_\_\_

Delivery will be made with a straight truck—13' high and 35' in overall length. Please list in the space provided below any obstacles (bridges, weight restrictions, private and/or dirt roads, overhead electric or telephone wires, road construction, detours, etc.) that our driver should be aware of to prepare for the delivery. Jobsite deliveries are made at the discretion of our drivers.

\_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

**\*\*\*PLEASE attach map showing road access from major highways or interstates.\*\*\***

Kahle's drivers are responsible for tail-gate delivery only. In order to have cabinets unloaded as scheduled, you are required to furnish the necessary manpower.

NOTE: If the jobsite delivery cannot be completed, the dealer must accept the cabinets at their warehouse or showroom.

This form must be completed and returned to Kahle's Kitchens, Inc. for approval before the trucking schedule can be completed.
